

Institute of Business Process Management and Economics

Institute of business process management and economics was founded by the decision of the Academic Council of the Siberian Federal University on January 25, 2010 by merging three economic faculties:

- *Department of Management and Business Technologies of Krasnoyarsk State Technical University;*
- *Economics Faculty of Krasnoyarsk State Academy of Architecture and Construction;*
- *Department of Applied Economics and Management of economic systems Krasnoyarsk State University of Nonferrous Metals and Gold.*

They have own history of development, different experience, but united by a common goal-training of highly qualified personnel economic and management profile for real sector of economy.

Mission of the Institute of Business Process Management and Economics

Changing the mindset and mode of operation of the administrative body and entrepreneurs in order to form a professional business environment and strategic competitiveness in the world markets

The Institute for Business Process Management and Economics is focused on training cadres to provide continuous efficient operation of enterprises with strategic and tactical tasks aimed at achieving marketing, production, financial goals. The Institute deals with business processes of large, medium and small enterprises.

Management of business processes of economic entities, innovative and investment projects requires building the mechanisms for interaction between business and government, public-private partnerships, being the subject of research, development and educational activities.
